

COSMOS® COOK-WOK PRIME - INDUCTION

The Cosmos Cook Wok Prime® – Induction Model is an energy-efficient and precision-controlled bulk cooking solution designed for modern commercial kitchens. It ensures even heat distribution, accurate temperature control, and superior safety for high-volume food production.

CONSTRUCTION & DESIGN ●●●

SUS 304 Stainless steel bowl, lid, housing
and Stirring tool.

Best-in-class stirring system with Teflon
scrapers for complete pan coverage

Motorised lid opening and vessel tilting mechanism

Smooth brushed finish with mobile wheel support

Time & Temperature Control System

KEY FEATURES ⚡

Variable RPM with forward & reverse stirring for uniform mixing

Precised digital power control & uniform bottom heating

Induction Heating for controlled and delicate cooking

Continuous stirring during tilting for zero product wastage

Water inlet system for controlled water addition during cooking

Silent, splash-free operation with advanced safety protections
